

Sensual Sounds in Majestic Surrounds

Music DVD

Shan Qi

Energy Of The Mountains

The beauty of the Dolomites and South Tyrol's picturesque countryside provide an impressive setting for the international project Shan Qi. Staged with stunning visuals and an optimal sound, these musicians perform an entrancing succession of songs; whose nice mix of traditional music, folklore, neo-classical and contemporary sounds weaves its way irresistably into the spectators' consciousness.

Shan Qi's „Energy Of The Mountains“ is a sensual concert experience before the magnificent outdoor setting of the southern Alps, with the Three Peaks of Lavadredo and the Rotwand Mountain looming in the background

Directed by Giacomo Talamini
Produced by Giovanni Amighetti
Sound by Bruno Cimenti
Photography by Mattia Gri
