## Stefan Aeby Trio

## UTOPIA

The dream of a perfect world. Of a world of freedom. Of equality. Of self-realization.

A world in flux and rebirth. Curiosity as well as the search for consistency and familiarity.

Big becomes small and limits disappear. Everything seems possible...

And in the middle of this: a piano trio.

A trio which dreams of being free, but still together. A trio with a curious and open spirit that allows limits to disappear without losing its roots.

-----

*"The compositions are uniformly excellent, filled with unexpected twists and surprising harmonic choices. Highly recommended excellent listening experience."* Cadence, New York
