

**Jazz Vinyl with Wooden Sculpture**

Special - limited Edition

German Jazz and Worldmusic label Ozella Music is releasing a series of peerless special editions, strictly limited to only 12 units per issue: a Vinyl LP of well-selected Jazz artists, forced together with image-sculptures made of poplar wood, developed and crafted by German sculptor and painter **Werner Schlegel**, who designed his work, based on the associated music release.

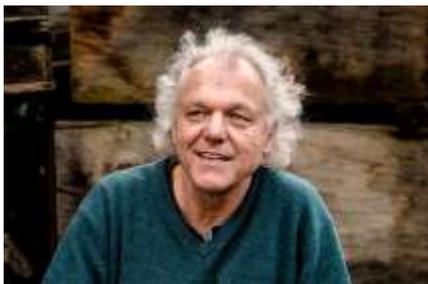

The wooden work of art is made by Werner Schlegel: the German sculptor, living and working in Niederntudorf near Paderborn. ([www.werner-schlegel.de](http://www.werner-schlegel.de))

The idea of this special edition –to combine visual arts and music- was in a state of continuous progress and lively exchange between Werner Schlegel and Dagobert Böhm (Ozella Music) for many years. Now, their vision has been brought to a high quality form of expression.

The limited edition contains:

- Audiophile Vinyl-LP, 180 Gram, Gatefold Cover
- Image-sculpture, poplar wood, in the size of a Vinyl LP

Each one of the image-sculptures is an unique item, but all of them share the same character. Both items -image sculpture and Vinyl LP- will be shipped together in an elegant box.

“The paintings and sculptures of **Werner Schlegel** indicate the transcendental, the source of life. They show a constantly reinterpreted theme: the play of silence with distinctions and its contrasts.....in the sculptures.....edge and curve are pitted against each other.”
